PROFESSIONAL SUMMARY

Electrical & Computer Engineering graduate specializing in Computer Engineering, with a CGPA of 3.33/4.00 and practical experience in software development, machine learning, networking, and computer systems. Skilled in developing full-stack web applications using React.js, Node.js, Express.js, Flask, and MySQL, with additional experience in network infrastructure maintenance and troubleshooting. Developed an A-graded machine learning-based healthcare system focused on patient urgency classification, disease prediction, and appointment scheduling. Demonstrates analytical thinking, problem-solving, teamwork, and a commitment to continuous learning. Seeking opportunities in software engineering, full-stack development, computer engineering, networking, and related technology fields.

EDUCATION

Bachelor of Science in Electrical & Computer Engineering (Computer Engineering)

Haramaya University

- ✓ Graduated: June 2026
- ✓ CGPA: 3.33/4.00
- ✓ Exit Examination Score: 60%
- ✓ Final-Year Thesis Grade: A

TECHNICAL SKILLS

- ✓ **Programming Languages:** Python, JavaScript, Java
- ✓ **Frontend Development:** React.js, HTML5, CSS3, Responsive Web Design
- ✓ **Backend Development:** Node.js, Express.js, Flask
- ✓ **Databases:** MySQL
- ✓ **Machine Learning:** Machine Learning Fundamentals, Data Analysis Fundamentals, Predictive Modeling Concepts
- ✓ **Networking & Systems:** Network Installation & Maintenance, Network Troubleshooting, VLAN Concepts, Network Simulation, Computer Systems Fundamentals
- ✓ **Tools & Platforms:** Git, GitHub, VS Code, Postman

PROJECTS

Web-Based Intelligent Patient Triage & Appointment Management System (A Thesis)

Technologies: Python, Flask, Machine Learning, MySQL, HTML, CSS, JavaScript

- ✓ Designed and developed an intelligent healthcare decision-support system using machine learning techniques.
- ✓ Implemented patient urgency and priority classification to support healthcare service delivery.
- ✓ Integrated disease prediction functionality to assist preliminary patient assessment.
- ✓ Developed intelligent appointment scheduling to improve operational efficiency.
- ✓ Built a web-based platform for patient management and administrative workflows.

Garage Management System

Technologies: React.js, Node.js, Express.js, MySQL, HTML, CSS, JavaScript

- ✓ Developed a full-stack web application for managing garage operations, customer information, vehicle records, and maintenance activities.
- ✓ Designed database structures for efficient data management and retrieval.
- ✓ Implemented administrative functionalities to streamline workflow and record management.
- ✓ Created responsive user interfaces to improve user experience and accessibility.

EXPERIENCE

ICT Directorate Trainee / Technical Support Assistant

Haramaya University ICT Directorate ***(Sept 2025 – Jan 2026)***

- ✓ Assisted in maintaining and troubleshooting campus-wide network infrastructure.
- ✓ Participated in Wi-Fi installation, configuration, and maintenance activities.
- ✓ Supported the diagnosis and resolution of network connectivity issues.
- ✓ Gained practical exposure to VLAN concepts and network administration.
- ✓ Assisted with network simulation and system support activities.
- ✓ Collaborated with technical teams to support reliable communication services across university facilities.

ACADEMIC ACHIEVEMENTS

- ✓ Earned an A grade for the final-year machine learning thesis project.
- ✓ Maintained a CGPA of 3.33/4.00 throughout undergraduate studies.
- ✓ Received academic recommendation letters recognizing technical competence, professionalism, and ethical conduct.
- ✓ Participated in academic, technical, and community-service activities.

LEADERSHIP & VOLUNTEER ACTIVITIES

- ✓ **HIT Charity Club** — Participated in charitable and community-service activities.

LANGUAGES

Amharic: Native Proficiency | **English:** Professional Working Proficiency
